

PUBLIK PARKING BIO:

Publik Parking, formed in 2003, is an ever-evolving alternative/metal band who has recently signed with Revolution Music Records. Monica's sultry melodic to growling vocals has set Publik Parking's style away from the rest. All the while, Neiko's strong, complimenting backup vocals along with his aggressively, gritty guitar riffs, and Tucker's highly energetic guitar style and rhythm lends itself well to the musical mix. Tim's vigorously enthusiastic bass style to Erik's precise backbeats, resonates the power within Publik Parking's musical creativity.

The inspiringly, creative collaboration that takes place between members drives them to produce each song as unique and complex as the next, using their own individual talents to complete the tie that binds them together not only as a band, but as a family of musicians with one goal. Each live performance is a dynamic stage show that keeps people coming back for more.

Publik Parking has had the distinction to be #1 on MySpace's metal top 10 indie label bands in Michigan and #7 on the MySpace's progressive metal top 10 indie label bands in Michigan for a time. Publik Parking has also been the featured artist on various websites and podcasts and airplay on numerous podcasts, online radio shows and local radio and college stations across the country, and Europe, also on 105FM in Belgium where they were in the top 10 of indie bands receiving airplay.
